The Dick Donovan Band provided the Big Band sound of the greatest era of modern music as Rochester and area citizens danced and enjoyed the spectacle of the Costume

Ball, sponsored by the Rochester Woman's Club, as part of the Rochester 300th Celebration.

A sampling of this event on the cover and pages 2 and 4 records some of the fun of the evening.

On the cover is the band (top left). The Rochester 300 Queen and her husband, Mr. and Mrs. Norman Grenier (top right) and Greenwood "Sonny" Hartley, Jr. in some fast swinging action (in photos below) with partner Mrs. Craig Sherman.

The SuperMortgage™ from Fairhaven Savings!

Yes, you can own your own house before you're old and gray. Yes, you can build equity faster and save thousands of dollars in interest.

It's called SuperMortgage, and here's how it works:

Instead of paying your usual monthly mortgage, you pay **half** your monthly mortgage every two weeks. Believe it or not, this sharply reduces the amount of your interest as well as the life of your mortgage.

To make things even easier, Fairhaven Savings Bank will deduct your SuperMortgage payments right from your NOW Checking Account. We'll even reduce your initial interest rate by 1/4%.

To find out more of the advantages of SuperMortgage, drop by any branch of Fairhaven Savings.

RECEIVED NOTICE from the State Department of Revenue that the Town's proposed equalized valuation for 1986 is \$270,291,000 - up by \$19 million from last year, for the cherry sheet.

WERE NOTIFIED by John W. Folino, Jr., owner of Cape Building Systems, Inc., Industrial Park, that he disagreed with the state District Highway Engineer's opinion on the high accident rate or hazardous intersection of North Street and Industrial Drive (at the entrance of the Industrial Park).

Selectmen had obtained the opinion of the state following a personal inspection by R.A. Smith, District Highway Engineer. Smith wrote, "After observing general traffic conditions and roadway geometrics, the sight distance at this intersection is sufficient and a review of Motor Vehicle Accident Reports for 1984-1985, furnished by the Mattapoisett Police Department, reveals no high accident rate at this intersection." The letter continues, "If, at some future time, traffic conditions change, and a roadway

widening is warranted, this project could be placed on a reconstruction priority list."

Folino's response suggested that Smith should be made to drive 100 times per day (about what "my vehicles do each day") north and south of Industrial Drive on North Street

Pesticide Study, Marion

At its June 3rd meeting the Marion Board of Selectmen Chairman Richard Lagreze appointed a committee of Marion residents to be known as the Pesticide Study Committee to determine how well the Town of Marion is controlling the application and use of pesticides. At its Town Meeting in April the voters had authorized such a committee with representation from the fields of medicine, chemistry, health, ecology and agriculture to be formed because of the public interest and concern about pesticides and its effects.

Because pesticides include herbicides, insecticides and fungicides the committee studies will be wide in scope and will include the laws and regulations of Federal, State and County agencies controlling pesti-

cides and their applications.

Immediately after its appointment the Pesticide Study Committee convened and elected Philip V. Taylor, an ecologist with wide experience in the U.S.A. and abroad, as its chairman. Mr. William Atwood, who has had long term experience in the use of pesticides, was elected vice chairman, and Miss Olive Harris, with an extensive background in household hazardous wastes, was elected secretary.

Other members of the committee and their fields of competence are: Dr. John Conway, medicine; Mr. Clyde Newland, chemistry; Mrs. Edna Archer, public health; Mrs. Ann Rockwell, ecology; Mr. Robert Merrow, agriculture; Mrs. Virginia Petzold, bees; Mr. John Farnham, herbicides, Mr. John Boyd, trees; Mrs. Joyce West, conservation.

The committee proposes to soon undertake a study of the breeding areas of mosquitoes such as stagnant water which even in small amounts is one of the contributing factors in the problem of mosquito infestation.

All of the Pesticide Study Committee meetings will be open to the public as exchange of information and education is seen as one of the greatest needs in relation to pesticides, their use and problems.

The committee will meet on Tuesday nights at 7:30 p.m. in the Marion Town House and

all interested persons are invited to attend and participate.

What you and she have in common.

The Statue of Liberty's monumental form is taken from the likeness of the human body in posture and in bearing. Both are beautiful; both are subject to structural problems.

The lady of liberty has gone through her period of pain and is now being brought back to health with structural renovation. To support the effort, cooperating doctors of chiropractic throughout the U.S. are contributing funds through the American Chiropractic Association.

Just as the Statue of Liberty fell into disrepair, so health can deteriorate if you do not follow a preventive maintenance program.

and interior were restored in a two-year project that was completed last summer, at which time a public service of Thanksgiving was held.

Now, plans are to begin restoration of the carriage shed which houses a kitchen, first day school facilities and several bays for carriages, as they were originally built. The first phase of the restoration project will be to replace the waterline to that building and to refurbish the kitchen floor, including the replacement of some of the floor beams.

To raise funds for that work, an auction has been planned for 10 a.m. July 19th, accompanied by sales of food, white elephants, books and other items. Donations of goods and services are being sought from the general public to help make the project a success.

Items already donated for the auction in-

clude a variety of old and new things. These range from an oak commode, an antique leaded stained glass window from a Marion house, historical paper including whaling letters and documents and an 1848 letter written by Charles W. Morgan, table linens, a Victorian loveseat and two old-fashioned

The Valedictorian, Christine W. Knight, gave the following address:

"I would like to take this opportunity to welcome you to the 25th Anniversary Graduation of the class of 1986. My classmates and I invite you to join with us to share our joy and pride in the achievements that we celebrate today.

"Many years ago, the class of 1986 began on a journey known as education. The roads of our journey have been long and often tiresome yet they have never lacked enthusiasm and fun. There have been many obstacles along the way, yet together we have overcome the problems. There has always been a familiar shoulder to cry on or an outstretched hand to help us out.

"Although we are a group of individuals with our own opinions and ideas, we have become part of a family, the class of 1986. We now find ourselves at the point where this one road divides into many branches — each of these heading in a different direction. We will no longer enjoy the security and support of our classmates each day.

"Although at first, these ideas appear

"The time has come to change scenes.
Focus your thoughts on the future.
It is time to sharpen your talents,
To prepare for the show called life.

It tells about your accommodations and dinner at the Lodge on the Green in Painted Post, visit to the Rockwell Museum's magnificent collection of Western American Art, visit to the Corning Glass Museum with a chance to leisurely see and purchase Corning products, visit the "Blasting Room" in which fine Steuben Glassware is created, visit the spectacular sight of never-ending cascades of water going through Watkins Glen Gorge, then motor along Seneca Lake to Wagner's Winery overlooking the lake. FISH is a volunteer service dedicated to providing transportation for the elderly in urgent or emergency situations where something less than an ambulance is required. The service is extended to mobile elders who do not have access to automobile transportation. To make an appointment for this free service all one has to do is phone the Council on Aging office any weekday morning at 758-3758. When the office is not open, phone 758-4986 or 758-2382, and a volunteer will help you.

Incidentally, the FISH symbol comes from early Christian times when the outline of a fish was used to identify other Christians. Very appropriate for this dedicated group of volunteers.

THE MERMAID THEATRE'S COLE TO BE PRESENTED

Cole Porter. The very name conjures images of tuxedoed men and sequin-gowned ladies, elegant townhouses, caviar, gleaming grand pianos in sumptuous penthouse apartments and the delightful tickle of champagne bubbles.

Cole Porter's music is classic - sophisticated, scintillating and sublime - and very international in its appeal. Though his roots are American mid-western (born in Peru, Indiana), Porter became the epitome of the sleigh-ride glamour of the 1920s through the 1950s.

The Marion Art Center Theater is pleased to announce their production of THE MERMAID THEATRE'S COLE, originated in London in 1974. This musical biography of Porter, based on his lyrics and music, will be offered June 26, 27, 28, 29 and July 11 and 12, with an 8:30 curtain. Included in the cast are Michael Corrigan, Judith Coykendall, Joey Hetzeck, Paul Knipler, Sheryl Medeiros, Davison Paull, H. Elayne Sama and Anne Schenck. Needless to say, champagne will be available.

Reservations are highly recommended, as cabaret-seating demands limited seat availability for each performance. Tickets for

A Thank You

I wish to express my appreciation to the officers of the Mattapoissett Police Department who responded so promptly to my call for assistance when my husband collapsed on May 7. They arrived within minutes and were very helpful in making Harry comfortable until the ambulance arrived to take him to Tobey Hospital where he remains. Everyone was very kind and reassuring. We are fortunate to have such competent and compassionate men on our Police Force.

Many thanks, Constance Martin

and to Polaroid for providing film at cost and the Superkid and American Gothic forms.

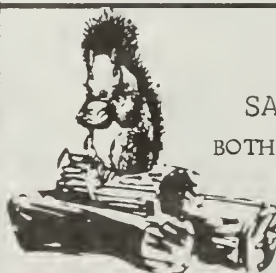

Thanks are also deserved by Center School teachers who devised this year's games and kept them running smoothly all day, and by Old Hammondtown teachers for their great books. Thanks to Jim Bradshaw who organized a terrific obstacle course and basketball shootout with nary a break all day, and Pam Thayer and her enterprising group of kids who worked so hard every Friday to make crafts and snacks to sell at the Fair. Their contributions and initiative are greatly appreciated.

We would also like to commend the Coca Cola Bottling Companies of Fall River and Sandwich who donated Coke so that Ryan DeTucci could set up his Taste Test. He would like to report that Classic Coke is still the favorite! Thanks also to his brother, Chris, and his mother, Doreen, for manning the booth with him all day. It was a great success.

Thanks to Sue Hovasse from The Pen and The Pendulum and to Sue Todd of the Hay-Loft for judging our Parade...and to everyone at the Ropewalk for allowing us to sell raffle tickets.

We sincerely thank Ruth Bates and all the children who created the "Have a Heart" quilt. Hours of work and love have been poured into this project that will be raffled off at Harbour Days in July.

In closing, I'd like to thank Mary Ann Amoroso, President of the P.T.C., for all her help in organizing the Fair and also

in the spring, summer and fall. It takes a lot of abuse with 3 children, 3 cats and a dog. So, when we decorated it we needed to take the "abuse factor" into consideration. The wicker furniture came from a lovely woman's basement. We painted it white. The dhurrie rugs (great because you can flip them over) came from a shop in Newport - on sale, of course. And for our windows (15 of them!) and slipcovers we chose coordinated 100% cotton print fabrics by Barrows. Excellent because they offer a huge selection of fabrics in great colors (we chose rose) at a reasonable price.

We offer Barrows fabrics as well as many other fabric lines. We can help you decorate any room in your home taking your "abuse factors" and budget into consideration.

EIGHT WEEKS to Better Photography

Why not make this the summer which moves you from a "snapshotter" to a photographer? We are now forming a new camera class with a strictly limited enrollment. Give me one night a week for the next eight weeks and I'll give you a dramatic improvement in the quality and composition of the pictures you take.

We meet on Wednesday evenings from 7:30 - 9:30 and we cover ALL the bases: Film, Lenses, Composition, Night Photography, What you Need and What you DON'T Need to take better shots. By limiting the size of the class, we have plenty of time for individual "hands-on" instruction. Sign up NOW.

"I Loved You Once in Silence", "The Simple Joys of Maidenhood", and, of course, "Camelot". These songs and others are woven into the story of the legendary King Arthur and his court, a story based on T. H. White's "The Once and Future King". The sets and costumes of the Zeiterion production are as resplendent as those of Camelot's Broadway debut in 1960, and the AMT brings their 20 piece orchestra to New Bedford to recapture the full, rich sounds of the original orchestrations.

The special arrangement between AMT and the Zeiterion allows for talented local performers from the New Bedford area to be integrated with a professional Equity company.

Camelot, which opened at the Garde Theatre in New London earlier this month, will travel to Worcester before arriving at the Zeiterion on June 19. The show was originally directed in New London by Jack Allison, with choreography by Thom Warren. New London's Musical Director Glen Clugston will accompany the show to New Bedford.

The New Bedford creative team includes Associate Directors George Charbonneau and Armand Marchand, Association Choreographer Clay James, and Associate Musical Director Don Vasconcelles, the same team that staged "A Chorus Line" at the Zeiterion last summer.

Introducing Honda's lightest lawn mower. Made of highly durable corrosion resistant polymer material for reduced weight, it's powered by a rugged, dependable Honda engine that starts easy and runs quietly.

It's light in weight, but heavy on features. Like a 17" cutting width and easy attach/detach grass bag design, handle-mounted starter rope and an automatic closing discharge door.

And since it's so light, it makes mowing easy, even if your grass is long or wet.

Old Field Pond Preserve, given to PCWT in 1983 by Hope G. Ingersoll, is one of the most interesting natural areas in southeastern Massachusetts. Its 115 acres are an important habitat for native plants and animals. The ecological diversity of the place has attracted a wide variety of nesting and migratory birds, as well as many animals. Within its boundaries are open fields, pine-oak woodlands, marshes, bogs, ponds and maple-cedar swamps. Two rare wildflowers, the Plymouth gentian and the long-beaked baldrush, grow there at the edges of the shallow ponds. PCWT, which is a non-profit land trust dedicated to the preservation of natural areas in this region, will protect Old Field Pond Preserve in a natural state for the public benefit. One of the important roles played by land conservation groups like PCWT is in preserving habitats for rare, threatened, and "watch list" species.

To reach the preserve from the west, take Routes 6 and 28 to Bourne Bridge rotary. Take Head of the Bay Road off rotary to Plymouth Lane. turn right, the preserve gate is 0.5 miles on the right.

EAST MEETS WEST

The Chinese Cultural Institute will present a program on Sunday, June 15th, at 2 p.m. on the outside concert stage at Heritage Plantation of Sandwich. The show will compliment this season's premier exhibition, "After the Chinese Taste" and will include many examples of Chinese dance, music and martial arts.

The program will begin with a Lion Dance which will be followed by folk dancing, folk and art songs, Chinese instrumental music, and martial arts. The Yang Martial Arts Academy students have been instructed by Master Yang Jwing-ming, author of several martial arts books. The academy features a curriculum that includes traditional Yang-style Tai-Chi Shaolin barehand and weapons training. Besides the lion dance, the academy will demonstrate the Chin Na among other Shaolin barehand techniques. The East West Dance Theatre, under the auspices of the Chinese Cultural Institute, was founded in 1977. As the name indicates, the dancers combine both Eastern and Western dance idioms in its repertoire. Many of the dances come from different areas of China, and the presentations range from delicate classical dances to colorful folk dances.

The music ensemble is made up of professionals who are not in the field of music, but who have been brought together by their common musical interests. The ensemble's goal is to promote the understanding and appreciation of Chinese classical and contemporary music.

Boston's Chinese Cultural Institute is a non-profit organization founded in 1980. Its purpose is to improve East West understanding and to stimulate interest in and understanding of Chinese history, philosophy, literature and arts as part of the world culture. To achieve this goal, the Institute presents various aspects of Chinese culture through multi-faceted programs which encompass visual arts and humanities exhibitions, classes and workshops, symposia and lecture series, presentation and production of Chinese dance and drama, and research and collecting of materials relating to the Chinese American Experience.

Membership, as well as admission tickets to the Museum for the day, will be honored for this performance and will include ad-
